

**NOTICE OF LAND USE CODE TEXT AMENDMENT AND
DETERMINATION OF NON-SIGNIFICANCE**

Pursuant to SMC 25.05.340 and WAC 197-11-340

Seattle Department of Construction and Inspections (SDCI) is proposing to amend the Shoreline Master Program, Chapter 23.60A of the Land Use Code (Title 23) to increase the consistency of the use of term vessel in the regulations and to clarify the term “used for navigation,” which is part of the definition of a vessel in the City’s SMP. The proposed amendment would clarify that a vessel designed for navigation, used for navigation in the past, and capable of being used for navigation in the future meets the intent of the phrase “used for navigation.”

ENVIRONMENTAL DETERMINATION

After review of a completed environmental checklist and other information on file, SDCI has determined that the amendments described above will not have a probable significant adverse environmental impact and has issued a Determination of Non-Significance under the State Environmental Policy Act (no Environmental Impact Statement required).
